3M™ DI-NOC™ Architectural Finishes: Retail

# A revolution in interior design.

## 3M™ DI-NOC™ Architectural Finishes

### An innovative, flexible design solution for refurbishment.

Breathe life into outdated fixtures and get creative flexibility on your new projects with 3M™ DI-NOC™ Architectural Finishes.

With over 1000 patterns to choose from, the design options are virtually limitless. These dynamic finishes transform spaces and can be applied almost anywhere: from walls and ceilings to fittings, furniture and doors. With a sophisticated, high-end look that will last up to 12 years, they're durable and let you revitalise any space.

DI-NOC Architectural Finishes are quick to install and more cost effective than traditional

refurbishment methods as well as being less labour-intensive and wasteful. DI-NOC finishes are up to ten times more wear-resistant than paint and wood.\*

Easy to clean and quick to repair, DI-NOC finishes are a low-maintenance, low-weight alternative to heavy-duty woods, metals, resins and plastics. If scuffed or damaged, they can be quickly repaired without the need to replace the entire panel or product. DI-NOC finishes are also a sustainable solution and may qualify for LEED certification credits.

# Retail

Make a great impression on your customers the second they walk through the door with 3M™ DI-NOC™ Architectural Finishes. With over 1000 patterns to choose from, you can tell your brand's story in a memorable and immersive way. Easy to install, they give you the flexibility to change your store's look to reflect up to date trends and encourage footfall through a differentiated design.

DI-NOC Architectural Finishes can help you cut down on occupancy costs by minimising spending on refurbishment. Ripping out tired fittings isn't just expensive, but also means closing your store and losing business. DI-NOC finishes can be installed over old fixtures in an evening, weekend, or even during opening hours, depending on the size of your project. There's less mess, so you don't need to clear out

stock during renovations. Highly durable, DI-NOC is resistant to daily wear and tear, maintaining your store image even during high footfall periods.

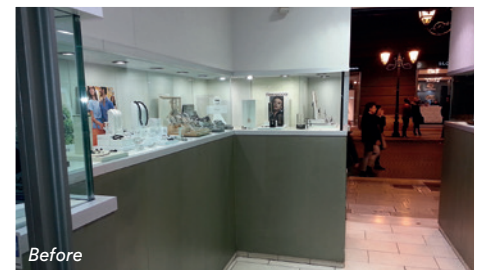

Revitalise your interior spaces and bring old fixtures back to life with DI-NOC finishes. Register for a sample, request a call from an expert or find your local 3M endorsed installer at [www.3M.co.uk/architectural](http://www.3M.co.uk/architectural).
