

# A revolution in interior design.

## 3M™ DI-NOC™ Architectural Finishes

### An innovative, flexible design solution for refurbishment.

Breathe life into outdated fixtures and get creative flexibility on your new projects with 3M™ DI-NOC™ Architectural Finishes.

With over 1000 patterns to choose from, the design options are virtually limitless. These dynamic finishes transform spaces and can be applied almost anywhere: from walls and ceilings to fittings, furniture and doors. With a sophisticated, high-end look that will last up to 12 years, they're durable and let you revitalise any space.

DI-NOC Architectural Finishes are quick to install and more cost effective than traditional

refurbishment methods as well as being less labour-intensive and wasteful. DI-NOC finishes are up to ten times more wear-resistant than paint and wood.\*

Easy to clean and quick to repair, DI-NOC finishes are a low-maintenance, low-weight alternative to heavy-duty woods, metals, resins and plastics. If scuffed or damaged, they can be quickly repaired without the need to replace the entire panel or product. DI-NOC finishes are also a sustainable solution and may qualify for LEED certification credits.

# Hotel

Keep your hotel looking like a five-star space with 3M™ DI-NOC™ Architectural Finishes. With no need for specialist tools or machinery, finishes can be installed quickly overnight or during the day when guests are away. This means the hotel can remain open and rooms can stay occupied during refurbishment while benefitting from the uplift in revenue from their new look. Easy to clean and maintain, DI-NOC Architectural Finishes are up to 10 times more durable than paint\* and can withstand the impact within high traffic areas, keeping your space looking fresh for years to come.

DI-NOC finishes combine colour and realistic texture to make them almost impossible to distinguish from traditional materials, such as rich mahogany and high-quality marble. For owners with several hotels, DI-NOC finishes make it easy to maintain brand standards while creating unique moods inspired by location; from capital cities to beach-front resorts.

Greet your guests with a well-designed lobby that reflects your hotel's character and

creates a dynamic, multi-use space suitable for both leisure and business. DI-NOC finishes can be used on a range of substrates and fixtures such as check-in desks, concierge stands, furniture and doors for powerful, cohesive design.

Revitalise your interior spaces and bring old fixtures back to life with DI-NOC finishes. Register for a sample, request a call from an expert or find your local 3M endorsed installer at [www.3M.co.uk/architectural](http://www.3M.co.uk/architectural).
